Idea of the workshop series

The idea of this ICMM Conference Series on Military Medical Ethics and IHL is to bring people from different backgrounds together, to share their experience and expertise on specific problems or dilemmas with the aim of reaching common positions on how to (re)act in future situations comparable to the cases discussed. For the workshop 2016, we are expecting about 40 speakers and participants from the fields of military, international humanitarian law, and philosophy, both from academia and practice. The conference itself shall give large room for plenary discussions. The plenary lectures as well as conclusions of the sessions shall be published within our series on the Workshop proceedings.

Planned Presentations

Proposals are listed in alphabetical order of the speakers' names. A detailed program will follow after confirmation of all speakers and their titles.
